

Building Expertise

Darwin
15-17 December 2009

Building Expertise

MIKE by DHI training courses will be offered in Darwin as a direct result of an increased public demand for water resource software solutions in Northern Australia.

The courses introduce new users to MIKE by DHI software and provide an opportunity for existing and even experienced users to upgrade their skills. Learn practical methods for problem solving, using state-of-the-art technology based on DHI's 30 years of advanced research and development.

DHI's leading edge MIKE by DHI water modelling software and solutions software are the global industry standard for urban water, marine and water resource management. MIKE by DHI software is used by water utilities, government agencies and consultants across the globe.

| MIKE by DHI Training Courses - Darwin 2009 | | | Prerequisite | 15 Dec | 16 Dec | 17 Dec |
|--|------------|--|-------------------------------------|--------|--------|--------|
| Water Resources Courses | | | | | | |
| 1 | MIKE SHE | Introduction to integrated catchment modelling focusing on MIKE SHE. Learn about the processes and linkages between overland flow, unsaturated flow, vegetation based evapotranspiration, groundwater flow and channel flow. | None | | | |
| 2 | MIKE 11 | Introduction to 1D river and channel modelling. Condensed from two days into 1, designed as a refresher course or prerequisite for MIKE FLOOD. | None | | | |
| 3 | MIKE FLOOD | Introduction to Integrated 1D-2D floodplain modelling focusing on MIKE 21 for terrestrial surface water modelling, 1D-2D coupling types and parameters, detailed discussion of implementing structures in MIKE 21. | 2, or existing knowledge of MIKE 11 | | | |

**The venue for the training courses will be:
Training Rooms, Unit 3, 6 Catterthun Street, Winnellie NT**
